DIGITAL MEDIA PROGRAM

The Digital Design Program offers students the skills and training needed to work as a digital media professional through the creation of appealing and engaging content. Our hands-on approach gives students the communication, production and technical proficiency training techniques needed to make sophisticated choices in creating digital media art. The student is challenged to go beyond their depth of creativity while exploring an array of recent methods and approaches currently used within the field of digital media.

TOP-NOTCH! Our faculty is comprised of **Top-Notch Professional** designers and animators who are currently working within their **Respective** Professions.

HANDS ON! To ensure the best **Education and Training** possible, our classrooms and open labs are designed so each student has the **Opportunity** to receive **One-On-One** attention and instruction.
